

## Community expertise needed: Algoma Geriatric Network

The Algoma Ontario Health Team (AOHT) is a team of local health professionals, organizations, and community members working together to improve the health system in Algoma. We want to create a network where patients will have access to the right care, right team, and right care setting when they need it.

**We are currently recruiting two volunteer community partners to join the Algoma Geriatric Network (AGN).** Community partners can be patients, clients, families, caregivers, people with lived experience, and other citizens who interact with health and social services. If you have experience accessing health or social services as an adult 65+, or in support of an adult 65+, you fit the role!

The AGN promotes and leads development of partnership and coordination throughout the system including local geriatric service providers and specialized geriatric service providers in Algoma, Sudbury and provincial partners. AGN works to ensure consistency in approach, strategy, priorities and outcomes in collaboration with partners and stakeholders in Algoma.

The purpose of this role is to incorporate the expertise of the community members in health system work. Community partners on the AGN will actively partner with staff and health professionals from organizations across Algoma to improve patient experiences and regional health services. **Please note that these positions are volunteer roles.**

### Qualifications

- Previous experience accessing health or social services
- Adult 18+ and acted/acting as a caregiver
